

## ANDERS KAPPEL

Vicissitudes of Daily Life

30 Augusti - 22 September

Vernissage 30 Augusti 18-20

Roger Björkholmen Galleri

Kommendörsgatan 15, Stockholm

Anders Kappel's new sculptures have an appearance of directness and simplicity due to their easily recognizable materials such as tree and steel as well as to their sometimes nearly abstract formulation. Despite of perhaps appearing easily interpretable these large scale sculptures surprise the viewer with their depth in a closer inspection.

Another characteristic in his body of work is the dramatic play involving scales. The blending of oversized electrical plugs with human miniature figures leaves no visitor unaware of the unlimited spectrum Anders Kappel has for imagination. There is also a constant dialogue between the play as in the world of children and the more serious world of the grown ups.
